BROKERS LTD

Schemes and Affinity

At BLW, we have extensive experience in the arrangement of bespoke covers for trade and sporting associations, professional bodies and other affinity groups.

Our experienced team will review your specific, and often unique, requirements, carefully selecting an insurer partner who will be able to provide the individual and bespoke covers you require.

We will support you through the whole process to ensure that your members are provided with covers that meet their specific needs.

Broker at **LLOYD'S**

BLW Insurance Brokers Limited (BLW) is a registered Lloyd's broker. Regional brokers and direct commercial customers work with us when they need bespoke risk transfer solutions for their complex insurance arrangements.

Established in 1971, BLW has been trading for 50 years and remains independent, owned by our working directors.

Our customers and partners

We are passionate about providing a professional, agile, and personal service for our broker partners and direct commercial customers. If you're looking for a trusted broker to create and tailor a bespoke policy to satisfy your specific business requirements, then you've come to the right place.

We recognise the benefits of developing and nurturing enduring relationships with customers, insurers and brokers and we collaborate with carefully selected partners to offer all classes of liability, commercial, property and associated covers, along with sport and leisure insurance and marine insurance. All tailored to our clients' individual needs.

Innovation

As a fully accredited Lloyd's broker BLW has direct access to a unique pool of underwriting expertise in the Lloyd's global marketplace. This enables us to

use our specialist knowledge to locate the best underwriters and negotiate the most favourable contractual terms for our customers, bringing world-class support to our network.

Combining our expertise in niche products, sectors and regions allows us to identify and develop new products in partnership with Lloyd's, as well as with the major composite insurers, underpinned by our customer-first approach.

Claims

A delayed claim settlement can damage your reputation and have a detrimental effect on your business relationships. At BLW, you can trust us to provide you with quality advice and continued support while handling your claim as smoothly and efficiently as possible with our insurer partners.

For larger losses, we appoint our nominated loss adjusters on the first date of our notification of the loss to liaise with all parties involved. Their aim is to streamline the claims process and to provide regular updates where appropriate, keeping matters as stress-free as possible.
